Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on July 17th 2004 has been entered.

Allowable Subject Matter

2. After a further search and a thorough examination of the present application and in light of the Applicant's arguments and in light of the prior art made of record, claims 1-29 are found to be in condition for allowance.

Reasons for Allowance

3. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose a method and image editing apparatus comprising separation means to separate an image into shape data and

texture data, shape manipulation means for transforming the shape data separated from the image data by the separation means so as to change a shape represented by the shape data, texture manipulation means for transforming the texture data in conformity with result of transformation by the shape manipulation means.

It is noted that the closest prior art of record Panasupone et al. (US 6483874) teaches a similar method and image editing apparatus, however, Panasupone fails to particularly teach or suggest *"separating an image into shape data and texture data, shape manipulation means for transforming the shape data separated from the image data by the separation means so as to change a shape represented by the shape data, texture manipulation means for transforming the texture data in conformity with result of transformation by the shape manipulation means"* as specified in the claims.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance".
